MODULAR ENCLOSURES

PRODUCT OVERVIEW
McCain Walls® prefabricated modular enclosures make it easy to create a closed-off area for storage, containment, or private rooms.

Ideal for various applications, our engineered modular enclosures are scalable to expand and be reconfigured to meet the project specs.

McCain Walls flexible systems include many ceiling, door, and window options as well as built-in plenums, all of which can be added or removed from a system at any time. Interior two-sided wall systems are available for a dual-finished look.

An independent testing laboratory has acoustically rated our wall products.

IDEAL APPLICATIONS
✓ Chiropractic Services
✓ Containment Rooms
✓ Control Rooms
✓ Equipment Storage
✓ HVAC Plenums
✓ Manufacturing Process Rooms
✓ Quality Control Test Areas
✓ Quiet Rooms
